

Intermediate Music Tasks

Activity

Week 1

Identify Instruments: Listen to “You’re Welcome” from Moana. While listening – see what musical instruments you can identify behind the character Maui’s voice. There are at least 5 – can you identify them – and more?

Intermediate Music Tasks

Activity

Week 2

Make your own instrument: Time to get creative at home. Musical instruments come in many sizes and shapes. Many wind instruments are based on the size of the tube and directly correlate to the pitch of the sound – for example, a high pitched instrument usually has smaller tubing, lower instruments have more tubing. What can you find in your home that can MAKE an instrument? Get creative on the sounds you can make – Shakers? Drums? Pots? Pans? Box? What best song can you make with your home made instrument?
